# Banner DegreeWorks: An Overview

There are a number of differences between the legacy and Banner version of DegreeWorks. The changes that appear in the Banner version will facilitate your work as an advisor, and enhance your students' understanding of the DegreeWorks audit. This brochure serves to help you navigate these changes.

## Student Information Bar

In the new version of DegreeWorks, students are classified by student class level. The class level for undergraduate students will be displayed as UG\_Year, and the level for pharmacy students as PH\_Year.

The student degree now specifies student major. Degrees will be listed first, and the specific major will follow. For example, ABJ\_PURE indicates the stu-

dent is pursuing a Bachelor of Arts in Journalism, with a major in Public Relations.

## Student View Block

The changes in student classification and degree also appear in the Student View Block. Student attributes, such as Honors Program students and Air Force students, are also included. Registration holds are now explained in greater detail.

## Refresh Option

The refresh button, pictured to the left, will pull information from the Banner student information system and immediately process it into the DegreeWorks audit after selecting Process New. This ensures that updates to the Banner student information system, such as grade changes, appear immediately in the audit when the refresh button is clicked.

## Additional Changes to Audit

The Legend and Disclaimer are now listed on the bottom of the student audit. In-Progress courses appear within the audit. Additionally, advisors and students can access a list of

in-progress courses by clicking on "Class History" and finding the courses listed for the current semester.

High school curriculum requirements (CPC requirements) are now shown in the student audit. Course requirements that are exempted by examination are denoted with "EX".

## Student Access

We are excited to announce that academic renewal students, students with quarter system work, and students with multiple course levels will now be in DegreeWorks. Please note that quarter system courses will appear on the bottom of the audit, under "Quarter system credit and credit not counted toward graduation".
