March 13, 2013

UNIVERSITY CURRICULUM COMMITTEE – 2012-2013

Mr. David E. Shipley, Chair

Agricultural and Environmental Sciences - Dr. T. Dean Pringle

Arts and Sciences - Dr. Timothy Gupton (Arts)

Dr. Rodney Mauricio (Sciences)

Business - Dr. William D. Lastrapes

Ecology - Dr. James W. Porter

Education - Dr. William G. Wraga

Engineering – Dr. Sidney Thompson

Environment and Design - Mr. David Spooner

Family and Consumer Sciences - Dr. Silvia Giraudo

Forestry and Natural Resources - Dr. Sarah F. Covert

Journalism and Mass Communication - Dr. Alison F. Alexander

Law - No representative

Pharmacy - Dr. Keith N. Herist

Public and International Affairs - Dr. Robert Grafstein

Public Health - Dr. Marsha C. Black

Social Work - Dr. Kristina Jaskyte

Veterinary Medicine - Dr. Scott A. Brown

Graduate School - Dr. Tracie E. Costantino

Ex-Officio - Provost Jere W. Morehead

Undergraduate Student Representative - Mr. Pranay Udutha

Graduate Student Representative - Mr. Garrett Jaeger

Dear Colleagues:

The attached proposal to change the name of the Center for Remote Sensing and Mapping Science to the Center for Geospatial Research will be an agenda item for the March 20, 2013, Full University Curriculum Committee meeting.

Sincerely,

David E. Shipley, Chair

University Curriculum Committee'

cc:

Provost Jere W. Morehead

Dr. Laura D. Jolly

University of Georgia NAME CHANGE JUSTIFICATION FORM

School/College Name: Department: Proposed Name:	Franklin College of Arts and Sciences Geography Center for Geospatial Research (CGR)	
Center Name Changes:		
Current Center Name: Center for Remote Sensing	and Mapping Science (CRMS)	Proposed Center Name: Center for Geospatial Research (CGR)
JUSTIFICATION:		
The name change from the Center for Remote Sensing and Mapping Science (CRMS) to the Center for Geospatial Research (CGR) will have several benefits to our center, the Department of Geography and UGA. It also will fulfill the suggestion of the most recent external review of our department to update our center name. The Center for Geospatial Research will better represent our current focus on geospatial technologies including remote sensing, photogrammetry, geographic information systems (GIS), Global Positioning System (GPS) and Light Detection and Radar (LiDAR). We also conduct geospatial research in addition to mapping science such as spatio-temporal modeling, geovisualization of virtual environments, movement/navigation analysis and remote sensing of biophysical processes. The new name better reflects our modern focus of research in advanced geospatial technologies and analyses. SIGNATURES:		
School/College:	Alan T. Dorsey, Dean Franklin College of Arts and So	1-/7-/3 piences
