UNIVERSITY CURRICULUM COMMITTEE – 2021-2022

Susan Sanchez, Chair

Agricultural and Environmental Sciences – Nicholas Fuhrman

Arts and Sciences – Jonathan Haddad (Arts)

Rodney Mauricio (Sciences)

Business – Jim Carson

Ecology – Amanda Rugenski

Education – David Jackson

Engineering – Kun Yao

Environment and Design – Ashley Steffens

Family and Consumer Sciences – Sheri Worthy

Forestry and Natural Resources – Joseph Dahlen

Journalism and Mass Communication – Dodie Cantrell-Bickley

Law – Randy Beck

Pharmacy – Michelle McElhannon

Public and International Affairs – Leah Carmichael

Public Health – Allan Tate

Social Work – Harold Briggs

Veterinary Medicine – Shannon Hostetter

Graduate School – Wendy Ruona

Ex-Officio – Provost S. Jack Hu

Undergraduate Student Representative – Matthew Jue

Graduate Student Representative – Sarah Burns

Dear Colleagues:

The attached proposal from the College of Agricultural and Environmental Sciences for a new course prefix, RBIO, Regenerative Bioscience, will be an agenda item for the March 18, 2022, Full University Curriculum Committee meeting.

Sincerely,

Susan Sanchez, Chair

University Curriculum Committee

cc: Provost S. Jack Hu
Dr. Marisa Pagnattaro

**College of Agricultural &
Environmental Sciences**
UNIVERSITY OF GEORGIA

Date: January 24, 2022

School/College/Unit: College of Agricultural and Environmental Sciences

Department/Division: Department of Animal and Dairy Science

New Prefix Requested: RBIO, Regenerative Bioscience

Justification: The Regenerative Bioscience major was approved by the Board of Regents in January 2022. The major is offered by the Department of Animal and Dairy Science within the College of Agricultural and Environmental Sciences.

A new prefix is being requested for several reasons. Although the Regenerative Bioscience major is housed in the Department of Animal and Dairy Science, Regenerative Bioscience and Animal and Dairy Science are separate fields of study. In addition, due to the large number of courses under the prefix ADSC, many of the course numbers have already been used. The development of a new prefix would allow for more appropriate sequencing of course numbers for current courses and additional courses that may be developed in the future as the program grows. Finally, identifying Regenerative Bioscience courses with their own prefix will enable students to find them more easily and understand the progression through the program.

Once the RBIO prefix is approved, a course change will be submitted to change the prefix of the following courses:

Current Prefix	Updated Prefix	Course
ADSC 2400	RBIO 2010	Introductory Regenerative Bioscience
ADSC 3130	RBIO 3130 (Cross-listed with ADSC)	Animal Biotechnology
ADSC 3330	RBIO 3310	Therapies for Tissue Repair and Regeneration
ADSC 4420	RBIO 4410	Engineering Living Organisms
ADSC 4950	RBIO 4950	Senior Capstone in Regenerative Bioscience
