The General Education Subcommittee of the University Curriculum Committee met on December 11, 2018, at 10:30 a.m. in 315 New College.

The subcommittee passed a resolution to request that the University Curriculum Committee and the Office of the Vice President for Instruction address concerns that college-wide requirements limit General Education Core Curriculum course options for students, which could increase time to graduation.

The subcommittee discussed the updated draft General Education Plan, which was revised following the November 5, 2018, subcommittee meeting to incorporate revisions by members of the subcommittee. The committee suggested additional revisions to the draft General Education Plan. The revisions will be incorporated in the draft plan and discussed at the next General Education Subcommittee meeting.

The next General Education meeting will be held in January 2019.

The meeting adjourned at 12:00 p.m.
