

This reference guide will explain the process for submitting courses for Institutional Competencies using the online course approval system, CAPA.

This process will support the Comprehensive Learner Record, or CLR, at the University of Georgia.

The CLR is designed to highlight students' validated competencies and achievements that they have acquired through their UGA coursework and activities. Courses and activities that are approved for Experiential Learning, and that meet the Institutional Competencies will be displayed in the CLR. For the CLR to be as robust as possible for our students, we encourage as many courses as possible to be submitted through these new CAPA processes.

To navigate to the Institutional Competency Tab when submitting a Course Change Proposal:
