

DegreeWorks Update Comparison Guide

The current, classic version of DegreeWorks is being retired and is being replaced with a new, updated version.

This new update to DegreeWorks has an improved, modern design and is ADA compatible for accessibility. It is also mobile and tablet friendly and responds to the screen of the device being used. DegreeWorks also now re-sizes and scales to the user's screen, reducing the need to scroll.

The new design is also moving away from the classic "blocks" look and now displays information as "visual cards." Each section of the audit can now be collapsed and expanded.

The following guide provides a comparison of the classic version of DegreeWorks and the new update for these areas in DegreeWorks :

Class History is now located under the ellipsis beside the email icon. Students' courses are listed in chronological order by term.

The new version also displays under which section courses are falling. Sections include *General Electives*, *Excess Credit*, *Non-credit*, and *Quarter System*. Users will not see curriculum cards (*Areas I-VI*, *Major*, *Minor*, *AoE*, etc.) in this section column.

Class History now opens in a pop-up rather than a new browser window. Users will need to copy and paste or screenshot this pop-up window. Users can also still print the audit itself, but Class History no longer has this functionality.

Credits Earned Toward Graduation: 79
Credits Used to Fulfill Multiple Requirements: 49

New:

Degree: Bachelor of Arts INCOMPLETE

Credits Required: 120 Credits Applied: 96 Bulletin Term: Summer 2021 - Bulletin

The new **Degree Card Header** displays *Credits Required*, *Credits Applied*, and *Bulletin Term* fields.

Credits Required = Number of credits needed to earn the degree.

Credits Applied = All credits transferred, in-progress, and earned towards the degree. Excludes hours in *Excess Credits*, *Non-Credit*, *Quarter System Credit* and *Credit Not Counted Towards Graduation* sections or shared courses. The classic version included excess credit.

Bulletin Term = Indicates the academic bulletin the student’s coursework follows. Ex: “Fall 2022 – Bulletin” follows the Academic Bulletin for the 2022-2023 Academic Year (Fall 2022, Spring 2023, Summer 2023).

The *Credits Earned Toward Graduation* and the *Credits Used to Fulfill Multiple Requirements* fields no longer exist.

The *radio buttons* in the classic version have been replaced with *plus signs* in the new version.

In the classic version, the *Exception* dropdown and blocks could be filled out before clicking on the requirement radio button. In the new version, users must choose a requirement before the *Exception* can be chosen.

This *Add Exception* pop-up does prevent the user from scrolling while open. It is recommended that users take note of the course they want to use for the *Exception* since they will not be able to scroll while the box is open.

Run New Audit no longer exists on the **Exceptions Tab**. The new version will automatically run a new audit after the *Exception* is added.

In the new version, *Exceptions* can be deleted by navigating to the *Exceptions* section at the bottom of the **Exceptions Tab**. Select the check box beside the *Exception* and then the trashcan icon. Before deleting, please verify that the correct *Exception* was chosen. A verification warning is not provided before deleting.

In the classic version, there was one *General Electives and Other Credits* section.

In the new version, there is an additional electives section titled **Excess Credit**. Credits that are not needed to fulfill the overall degree hours (usually 120 or more) may fall in this section.

Users can refer to the *General Elective Credits Required* number in the degree block to view how many *General Electives* are needed to complete degree hours.

General Elective Credits Required

Classic:

New:

Your General Elective Credits Allowed = 25. Credits taken in excess of this number may fall into the Excess Credit section.

This new addition replaces the *Elective Calculator* located above the *General Electives and Other Credits* section in the classic version.

General Elective Credits Required = *Degree Credits Required* – *Individual Card Credits Required/Credits Applied* (whichever number is higher for each card) + *Shared Credits*.

Ex. Degree = 120 Credits, Core (Areas I-VI) = 60 Credits, Major = 40 Credits, Minor = 15 Credits, Shared Credits = 20

$$120 - 60 - 40 - 15 + 20 = 25 \text{ General Elective Credits Required}$$

When determining the credits for each card, DegreeWorks looks at *Credits Required* until *Credits Applied* has achieved its minimum. If Area VI requires 18 credits hours but 20 are applied, DegreeWorks will look at the *Credits Applied* value and recalculate **General Electives Credits Allowed**. The new **General Elective Credits Required** will change to 23 since two additional hours were taken in Area VI and no longer need to be taken in *General Electives*.

General Elective Credits Required is not a countdown. As students start to take electives, this number will not change to reflect how many electives they have left to take. It may, however, change based on the credits taken in their cards. Like the example above, the number will change if additional credits are taken for required curriculum, there are changes to shared courses, or if exceptions are made to adjust card credit hours.

Although not used in the above example, DegreeWorks also accounts for college cards with required credit, Area of Emphasis, and the Honors block if applicable.

The *Major* card now displays a GPA for courses taken in the major, including Area of Emphasis coursework in a separate card.

This feature replaces the *Custom GPA Calculator*. This calculator allowed users to calculate GPAs using specific courses. DegreeWorks is no longer able to support this feature.

Plans

Classic:

New:

Users can still create a **Plan** using a Template or from scratch.

For more detailed information, please see the Plans Tutorial.

Refresh and Process New

Classic:

New:

PROCESS

The **Refresh** and **Process New** buttons have a new look but retain the same functionality. **Refresh** pulls in data from Banner/Athena. **Process New** will generate a new audit and pull any newly-found data changes into the audit.

Repeat Column

New:

Example of course with a letter grade:

| Course | Title | Grade | Credits | Term | Repeated |
|--|--------------------|-------|---------|-------------|----------|
| ARTS 2000 | Art Apprec | WP | 0 | Spring 2020 | |
| Satisfied by: ART1107 - The Arts In Society:Visual Art - Kennesaw State U | | | | | |
| CHEM 1212L | Freshm Chem Lab II | D | 1 | Fall 2019 | (R) |
| Satisfied by: CHEM1212L - General Chemistry II Lab - Kennesaw State U | | | | | |

Example of course in-progress:

| | Course | Title | Grade | Credits | Term | Repeated |
|--|-----------------------|-----------|-----------------------|---------|------|---------------|
| | English Composition I | ENGL 1101 | English Composition I | IP | (3) | Fall 2022 (R) |

The new version now has header columns. *Repeats* are indicated by “R” under the *Repeated* column.

Save As PDF

Classic:

Save as PDF

New:

The **Save As PDF** button has a new look.

In the new version, the printer icon at the top of the screen can be used to save and/or print a copy of the audit.

PROCESS

In the classic version, **What-If** and **Look Ahead** were two separate side tabs. **What-If** allowed users to project where courses may fall if they changed part of their curriculum. **Look Ahead** allowed users to project where future courses may fall if taken.

In the new version, the same functionality remains but both components are under the same tab. When users click on the **What-If** tab, they can either adjust their curriculum and process a **What-If** or click on the *Use current curriculum* box to do a **Look Ahead**. Clicking the *Use current curriculum* will collapse the *Program* and *Areas of study* dropdowns since no changes to curriculum need to be made for a **Look Ahead**. Users can also project future courses within a **What-If** by changing items in the dropdowns for *Program*, *Areas of study*, and *Future Classes*.

Note: Business Analytics is not an Area of Emphasis (AoE) for International Business co-majors. Business Analytics pulls into the AoE dropdown because it is associated with one of the major codes (Ex. ACCT, ECON, FINA, etc.) for the program (Ex. BBA_INTB_ACCT). If students attempt to run a **What-If** for an International Business degree and a Business Analytics, they will get a note in the block that the Area of Emphasis is not applicable to these co-majors.
