

## How to Calculate Remaining General Electives in DegreeWorks

**General Electives** are courses that count toward your required degree credit total but do not satisfy specific requirements for your program of study.

The **Degree** card near the top of the audit shows the *total* number of General Elective credits required for your degree program. This includes all General Elective requirements in the degree audit and may vary by student.

**Degree: Bachelor of Arts** INCOMPLETE

Credits Required: 120   Credits Applied: 98   Bulletin Term: Summer 2021 - Bulletin

General Elective Credits Required = 26. See General Electives section below for the number of elective credits that have already been satisfied. Credits taken in excess of this number may fall into the Excess Credit section.

**To calculate your remaining General Elective (GE) credits:**

Subtract the number of GE Credits Applied from the number of GE Credits Required.

<i>Formula</i>	<i>Student Example</i>
GE Credits Required	26
- GE Credits Applied	- 19
<b>GE Credits Remaining</b>	<b>7</b>

## What are Excess Credits in DegreeWorks?

**Excess Credits** are credits earned that do not satisfy any specific requirements for your program of study and do not count toward your required degree credit total.

Once your **GE Credits Applied = GE Credits Required**, earned credits not satisfying specific program of study requirements will appear as **Excess Credits** directly below the **General Electives** card.
