

College Board AP Exam Infosheet

UGA College Board Code: 5813

The University of Georgia is committed to assessing the successful completion of Advanced Placement Exams. The UGA Credit Equivalencies for AP scores and credit awards are published on the Office of the Registrar webpage. Undergraduate students may submit their official scores at any time. Scores are assessed based on the policy and credit awards in effect at the time scores are received.

Official AP scores must be sent directly from the College Board to UGA for a student to receive credit for qualifying scores.

It can take 5-7 business days for ordered AP scores to post to a student's Athena record and an additional 1-3 days for credit to post.

UGA does not offer overrides or other provisional placement to students awaiting the posting of AP exams and credit.

Test scores which have been correctly submitted to UGA can be viewed by logging into Athena and selecting "View Test Scores" from the Student Information Menu.

Each score report is cumulative — it includes scores from every AP Exam that a student has ever taken, unless the student has requested that one or more scores be withheld or canceled.

If a student does not see AP scores posted in Athena, please visit the College Board and verify that official scores were sent to UGA. If College Board did not send the scores, please request that they be sent.

If a week has passed since scores were sent and they are not posted in Athena, please email the Registrar's Office point of contact as listed below and request that the missing scores be researched. Please include your UGA student ID number and the exact date on which scores were sent by College Board to UGA.

For details on how to order your scores and other FAQ, please visit the College Board's help website:
